

Be-Ge 814XL, a quality chair that can be used in many different areas. The design is done in consideration that the chair is to be used at long and demanding hours of sitting. This chair is very suitable for persons that require larger seat cushion and high backrest.

The chairs illustrated are fitted with extra items

Sverigestolen Be-Ge 814XL reliability and stability makes this chair equal to Be-Ge 814, "classic", fits in both office as well as industry environment but with the difference that the seat cushion and backrest is larger. A gentle and easygoing kneemechanism/balansmechanism with infinite lock ability gives a freedom to an optional sitting position. The functions in this chair, does that you can vary often without changing chair. The seat cushion is designed with unique ventilation capabilities and is perforated to make the air change every

time you move in the chair. This makes that the seat cushion does not feel warm when you have been sitting for a while. The accessories for this chair are armrest and headrest. For other accessories, please check in Be-Ge's collection. We have chosen hardwearing and durable upholstery in both fabrics and leather, in different colours that will suit every environment. You can chose in our collection of upholstery or do your own choice – the most important is that you will have a chair that is perfect for you in both design and function.
